straight set sleeves

single jersey
fine knitted, stretchy, breathable material, inside and outside different (left/right loops), material of most t-shirts

single ply terry
made of fine single yarns, fine loops get twisted and connected, softer and more absorbent fabric, more resistant against pulling out threads

softshell jackets
functional jackets, usually made of 2 or 3 layers (with membrane), inside material (e.g. microfleece) provides isolation and transports the moisture away from skin, if existing, the membrane has windproof and breathable function, outside is made of water repellent material, that transports moisture to the outside, softshell jackets without membrane are more breathable, jackets with membrane are more wind and rain proof

stretch
marks stretchable fabrics including a share of certain materials like for example elastane or Lycra®

Teflon®
used for coatings, water and dirt repellent, not printable

terry cloth
cotton fabric typically used for towels, small loops on one or both sides, very soft, bulky and absorbent material

(T)PU coating
through an inside coating the material gets breathable and water repellent or even waterproof

tubular construction
if not specified differently, all models have side seams to adapt the fit, items without side seams are declared as tubular construction

twill
twill weave fabric, pattern of diagonal parallel ribs, most common use in denim fabrics, durable fabric with a warm and soft touch

viscose (rayon)
chemical fibre made from a natural basic material (cellulose), often referred to as artifical silk, eudermic, not stretchable, strong wrinkling, flowing fabric, very even surface, perfect for dyeing and printing

windproof
keeps the wind completely out, windproof products are not always waterproof, but waterproof articles are always windproof, materials that allow a maximum of 5 liters of air per second through one square meter of fabric are called windproof, windproof materials are often uncomfortable to wear due to the lack of breathability during activity
